## 2. City of Košice

In terms of its size and importance in the Slovak Republic, the city of Košice ranks right after the capital Bratislava. It lies in the eastern part of Slovakia, not far from the borders with Hungary (20 km), Ukraine (80 km) and Poland (90 km).

The advantages of this location, near the borders of three states and lying on important domestic and international transport routes, translate into the preconditions for good commercial connectivity. This is significantly enhanced by the existing railway junction and airport with international status.

The city occupies the Košice Basin formed by the wide valley of the River Hornad, contained by the outlying ridges of the Slovakian Ore Mountains to the west and the Salt Hills to the east. The city centre lies at 208 metres above sea-level, and the climate in Košice is moderately warm with average temperatures of 19° C in July and -3° C in January.

The city is the administrative centre of the Košice Region, and is divided in itself into four Districts

As an independent legal entity it is divided into 22 city wards, each with its own local government. Overall specialist, administrative and organizational responsibilities are borne by Košice's Municipal Authority in cooperation with the ward authorities. The city of Košice is governed by the Mayor and the City Council, and each ward also has its own elected council and council leader.

Košice has a strong economic background, and the city creates employment opportunities for the population of the surrounding region as well as its own. The biggest local employer is the U. S. Steel Košice steelworks, and of the total number of registered employees in the city as a whole, the great majority work in the industrial sphere. The education and transport sectors are also strongly represented here.

The average age of citizens is 35.13 years, which has led to Košice becoming known as the city of youth. The education system is significantly represented in the city, with over 45 basic schools, 10 grammar schools, 4 commercial academies, and 15 specialized secondary schools covering industrial technologies, agriculture, health care and the arts. There is also the Technical University with 8 faculties, P. J. Šafárik University with 4 faculties, the University of Economics and the University of Veterinary Medicine.

### 3. Sport and recreation resort Jahodná

Race Headquarter and service park will be located in Sport and recreation resort Jahodná, where are also possibilities for accommodation.

More information you can find on website [www.jahodna.sk](http://www.jahodna.sk).

### 4. History of MORIS CUP Jahodná

History of the MORIS CUP Jahodná race began in 2009, when the Auto Klub Košice - a longtime organizer of the Rally Košice - addressed Morris Slovakia s.r.o. company with offer to jointly bid on a hill climb race. Representatives of Moris company accepted this offer and so 6.6.2009 started a historic first edition of the race called MORIS CUP Jahodná 2009.

Race a great audience participation was very successful despite the weather. Martin Koiš created the first course record in time 02:07,037. Events were attended by 48 drives.

Based on a very good response among the drivers and spectators the second edition of MORIS CUP Jahodná 2010 was prepared. The race took place on date June 5 - 6. The event was till the last moment at risk due to floods that hit the eastern Slovakia. Despite the difficult situation, the event started.

On 5.6.2010 was held two heats of the official practice. After the first race heat authorities of the government decided to cancel the event for critical flood situation. At the discretion of the stewards results were announced after the first race heat.

49 drivers took part on event and they decided together with nominated officials, the main advertising partner Moris Slovakia s.r.o. company and Auto Klub Košice collected entry fees per day 6.6.2010 to give some of the villages affected by flooding.

Accordingly, the municipalities Nižná Myšľa and Krásna nad Hornádom uploaded funds total € 4,555. Course record was surpassed by Andrej Krajčí with time 02:04,991.

The ambition of the organizers to move their race into a higher range was accepted by SAMŠ and FIA and third annual MORIS CUP Jahodná (held June 5 – 6) was included in two FIA series - 2011 FIA International Hill Climb Challenge and FIA European Hill Climb Cup. Race counted also for Hill Climb Championship of the Slovak Republic and the National Hill Climb Cup.

Fierce fightings took place among 46 drivers (+ 11 in the National Cup) front of the traditionally large number of the spectators and uncharacteristic good weatherfierce.

The result was significantly improved track record, which had a value of 1:57,335 and Andrej Krajčí holds him.

4<sup>th</sup> edition of race was held in traditional date 9. - 10.6.2012 with a record number of 136 competitors. Race again counted for two FIA series - FIA International Hill Climb Challenge and FIA European Hill Climb Cup and for two national championships - Championship of the Slovak Republic and Championship of the Poland and also for the National Cup of Slovak republic.

Fierce fighting took place behind great viewing scenery during nice weather. A large number of drivers led problems to the organisers that have been well managed by understanding drivers.

The efforts of the organizers about improvement of the race was charged and organizers for the first time welcomed the participants of the FIA Historic Hill Climb Championship on hill Jahodna. In addition, similarly as in the previous year, the race counted also to FIA International Hill Climb Challenge, FIA European Hill Climb Cup and both national Championships – Poland and also Slovak Hill Climb Championship.

Organisers changed schedule of the race as well as the system of movement of vehicles to start area. These changes removed last year's problems. 95 contestants prepared for the traditionally large number of the spectators memorable motoring event, which was also highly rated by the FIA observer. Jaroslav Krajčí broke the course record three times during this event.

6<sup>th</sup> Moris Cup Jahodná was held again in its traditional term – on the beginning of June in fine sunny weather accompanied with high spectators' interest. Competition counted towards the FIA Historic Hill Climb Championship and in addition to the FIA European Hill Climb Cup, two national championships – Polish HC Championship and Slovak HC Championship and also to Slovak HC Cup.

More than 120 drivers showed their mastery and interesting fights to thousands of spectators.

During the 7th edition of the race the best drivers again struggled for points in the two FIA championships but this year without the Polish cavalry battles for the best placements in the Polish Championship. The novelty of the event was separate Slovak Historic HC Championship and also the Slovak Historic Regularity Trophy.
